The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

At last there is a hope of peace, with Russia to hear from.

If Russia had only purchased submarine boats, they would now be strictly in it.

If the creditors of Venezuela don't stop the run on that country, Castro will have to close his doors.

Russian bomb throwers are improving with practice. They have got it down so fine now they can wing a duke every crack.

A Wisconsin man has a trained pack of wolves that he uses to hunt with. There has been a pack of wolves around Washington for some time, and they are well trained too.

A united effort will be made to have the Legislature do something handsome for the Deaf, Dumb and Blind Institute at St. Augustine. It is certainly a worthy institution.

Curtis Jett, sentenced to hang for the assassination of J. B. Marcum in Breathitt county, Ky., has been granted a new trial. If he keeps on he may yet have a chance to die of old age.

The Fraternal Record, published at Jacksonville, is one of the best printed and ably edited secret society publications in the United States, and every Mason, Odd Fellow and Knight of Pythias can find much of interest in it every month.

The report that Secretary of State Hay will retire and that Judge Taft will be put in his place will be a move that will strengthen the Roosevelt administration. Taft will not develop the diplomacy that has been displayed by Hay, but will work with his leader to just as good advantage.

The report of State Chemist R. E. Rose for 1903-4 of the division of chemistry in the Agricultural Department, is received. It contains a favorable financial report of that division, reports on the inspection of fertilizers, advice on spraying fruits and the compounds used, besides a fund of other knowledge of interest to truckers and fruit growers.

The assertion that the Cear is in favor of peace does not seem to be borne out by the facts. There is no doubting that he is an ignoramus or he would not think for a moment that he is in any way connected with the Divine Ruler, and his belief is so strong that he will not listen to the advice of his ministers. The fact that men of education, equal to those who are next to the Cear, do not know that peace is the wisest thing for the country is sheer nonsense.

The Biblical Institute, which opens up in the tent at the corner of University and Union streets, Friday night, under the direction of the Seventh Day Adventists, will have some able speakers to advocate their cause. This sect is making wonderful progress in the Middle West and Western States, and is composed of many educated workers. They observe Saturday (the Sabbath), and aside from that they are noted for their uprightness toward their fellow men.

## STOP THE GREEDINESS.

The men who are doing considerable talking in regard to having the game and fish laws amended might do well if they would organize clubs and have a clause inserted in their by-laws that would impose a fine on the members who go out hunting and try to kill all the game in the woods in a single day, or try to clean up all the fish to be found in the lakes and rivers at one time.

The game and fish would be found in sufficient quantities if those men who style themselves sportsmen from the North and West would not try to capture everything in a day. Some men will go out after game fish and see how greedy they can be, and then want their names in the paper, giving the number of pounds they caught in a day.

Stop trying to exterminate the game in a single day, limit the number of birds at any one time, and don't catch a hundred pounds of fish and throw half of them away, and there would be no necessity for a law to protect the game or fish.

If an effort is made to stop such greediness we will have plenty of game and fish.

Diplomacy is said to be the art and practice of conducting negotiations between countries, and as the United States has had little trouble with nations of the world since the inception of Mr. John Hay into office, he has won the distinction of being a diplomat. When the country united and went into action to resist the oppression of Spain towards Cuba and gave that country such a shock on very short notice, the world began to think that the United States was a power, and all nations looked on in amazement at the rapidity shown in arraying forces for war and hats began to be raised for Uncle Sam. Then the diplomats were set to work, and at such a time it did not need the greatest men to negotiate demands, for there was a feeling that the United States was not to be trifled with. At such a time a Hay man would not experience the trouble that might have come up several years previous, and this has been Mr. Hay's opportunity. With all due respect to his ability, the occasion was a good one and he accepted all the chances.

According to the tenor of the personal views of the members of the Texas Railroad Commission, expressed to different persons before the hearing on the subject of reducing freight rates on cotton, a majority of the members of that tribunal have fully made up their minds to order a reduction in the rates as proposed. If this is done the railroads would suffer a loss in revenue of approximately \$800,000 per annum. It is estimated that the pending tax bills, the passage of which seems to be assured, will place an additional burden of not less than \$800,000 per annum upon the railroads. This would be a total of \$1,600,000 that would be taken from the railroads of the State each year.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & Co., Toledo, O. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

If the dailies of Jacksonville would waver as to which one printed the most Florida news, it would be easy to decide. But wagers on circulation, with a string attached, are not what readers want.
